TECHNICAL SKILLS

Languages:	C++ (Primary), HLSL, C#.
APIs:	DirectX11, DirectX12, Vulkan, PlayStation 4 & PlayStation 5 SDKs, SFML.
Software:	Visual Studio, SourceTree, Jira, Trello, Unity.
Management:	GitHub, Bitbucket.

NON-TECHNICAL SKILLS

- Enjoys learning new skills,
- Willingness to adapt to new software and challenges.

INTERESTS

Turn-based Role-Playing Games, Science-Fiction Fantasy & Space, World History & History Books, Adaptive Music Systems, Video Game History, Pixel Game Art,

SUMMARY

Computer science graduate with experience in video game programming and software development. I have previously worked with quality assurance teams and am familiar with the relationship these roles have with software development firms. In addition to testing PlayStation 5 software during this time, I have also developed PlayStation 5 software as part of my Masters Degree at Sheffield Hallam University. This culminated in developing a PlayStation 5 game prototype that won the university's 2024 student showcase, as well as a spot as an exhibitor at Barclays Games Frenzy 2024.

EDUCATION

1st Class Honours
| Master in Computing (MComp)
Computer Science for Games

<u>Relevant Modules</u>	
Programming 2D Games	(SFML)
Fundamentals of Computer Architecture	
Mathematics for Graphics	
3D Games Development	(DirectX11/12)
Mathematics for Modelling and Rendering	
Software-Hardware Optimisation Techniques	
Advanced Games Console Projects	(DirectX12 & PlayStation 4)
Artificial Intelligence in Games	
Effective C++ Programming	
Parallel Programming for Games	(Vulkan)
Graphics Programming Techniques	(DirectX12)
Individual Project / Masters Thesis	
Final Year Group Project*	(PlayStation 5)

<u>Group Projects</u>	
2021 - Micro Marina, 2D Shoot 'em up	(Unity)
2022 - Wild Trance, 2D Platformer	(Unity)
2023 - Flip 'n Flop, Perspective-based Platformer	(DirectX12)
2024 - *Refraction, 3D Player vs. Player Arena Shooter	(PlayStation 5)

Sheffield Hallam University
📅 2020-2024 📍 Sheffield, South Yorkshire

GCEs	
A Levels	
Computer Science	Grade B
History (Warfare)	Grade B
Mathematics	Grade C

Hinchingbrooke School (Sixth Form)
📅 2018-2020 📍 Hinchingbrooke, Cambridgeshire

OCR Cambridge National	
Creative iMedia	Level 1 Merit
- Pre-production Skills	Level 2 Merit
- Creating a multipage website	Level 1 Pass
- Creating digital graphics	Level 1 Pass
🔗 ocr.org.uk/qualifications/cambridge-nationals/	

BCS ECDL	
I.T Application Skills, QCF	Level 2 Distinction
🔗 bcs.org/get-qualified/certifications-for-professionals/	

GCSEs	
Combined Science: Trilogy	Grade A*
Mathematics	Grade A
History	Grade A
English Language	Grade B
English Literature	Grade C

Hinchingbrooke School (Secondary Education)
📅 2013-2018 📍 Hinchingbrooke, Cambridgeshire

WORK EXPERIENCE

FQA Software Tester (Functionality Quality Assurance)

Universally Speaking
June-August 2022 & June-August 2023 Wyboston, Bedfordshire

- Performed end-to-end testing of developer builds of video game software across a variety of 8th and 9th generation platforms, including: *Windows (Steam), Xbox One X & S, Xbox Series X & S, PlayStation 4, PlayStation 4 Pro, PlayStation 5, and Nintendo Switch.*
- Participated in mass-usability (stress) testing of applications developed by industry professionals.
- Recorded, reported, and regressed software bugs and crashes using industry-level software.
- Practiced effective communication with other employees across multiple worksites to avoid duplicate reports; maintained clear formatting to deliver informative feedback data to clients.
- Employment is subject to a Confidentiality Agreement; no further details are available.

Trainee IT Support Technician

KTS Computers LTD
July 2019 Saint Ives, Cambridgeshire

- Assisted with the repair of both personal and business computer hardware to solve software and hardware faults, ranging from basic to complex.
- Was given an overview of client ticketing and remote monitoring systems.
- Performed manual repairs of client systems, entailing the replacement and cleaning on hardware components.
- Gained an understanding of common system issues and how they relate to specific hardware components, as well as how client systems can be backed up and recovered.

AWARDS, EVENTS & ACHIEVEMENTS

GAME OVER 2024, “Best of Level 7 Group Projects” Winner

| End-of-Year Student Project Showcase
10th May 2024 Sheffield Hallam University

Our PlayStation 5 game prototype “Refraction” won the Level 7 Masters Student category after being judged by developers from the industry.

Barclays Games Frenzy 2024, Exhibitor

| Game Republic Student Exhibitor, Team JAR
16th May 2024 Barclays HQ, Canary Wharf
games.creative.barclays/games-frenzy-24/
gamerepublic.net/the-company/

Through presenting early footage of “Refraction” to Games Frenzy organisers, our team was invited to exhibit the game at Games Frenzy 2024; an industry networking event.
This was possible with support from Sheffield Hallam University and Game Republic, an industry networking company in the North of England.

Game Republic 2024, Exhibitor

| Game Republic Student Exhibitor, Team JAR
6th June 2024 Staffordshire University
tinyurl.com/4mryhm4b

I also presented “Refraction” at Game Republic’s 2024 student showcase, hosted by Staffordshire University, and had the opportunity to speak to multiple industry professionals.
